We deliver **healthy living** to our customers through sincere products and services

GreenFoodMaker is a group of people dedicated to providing healthy flavors and joyful lifestyles.

Green Food Maker was established to energize the busy lives of modern people and support a healthy lifestyle.

Through premium beverages and carefully crafted health foods made from the finest ingredients, we aim to deliver balanced nutrition that nurtures both the body and soul of our customers.

Under the motto of 'Healthy Flavors, Joyful Living' we are committed to continuous research, development, and innovation to provide our customers with the best products and services. Join Green Food Maker on a journey toward a healthy and happy life.

Core Values of Greenfoodmaker

Trust

Reliable and strict quality service from the selection of premium ingredients to production and distribution.

Convenience

Minimizing inconveniences in daily life through intuitive services.

Innovation

Pursuing meaningful innovation for change, growth, and progress.

Sincerity

Fulfilling corporate social responsibility and striving for eco-friendly packaging.

The four promises that embody the philosophy and commitment

About HanForyou

HanforYou is not just about making health products; we wanted to provide a simple yet reliable way to fulfill your daily health needs.

We meticulously reviewed and developed everything from ingredients to content to ensure you can confidently settle on our products after trying them.

We propose a healthier tomorrow than today.

About Thejinhan

For Thejinhan ingredients are not just materials but masterpieces—from roots and seeds to flesh and leaves.

The Thejinhan research team continuously explores and experiments to discover flavors that resonate with the public.

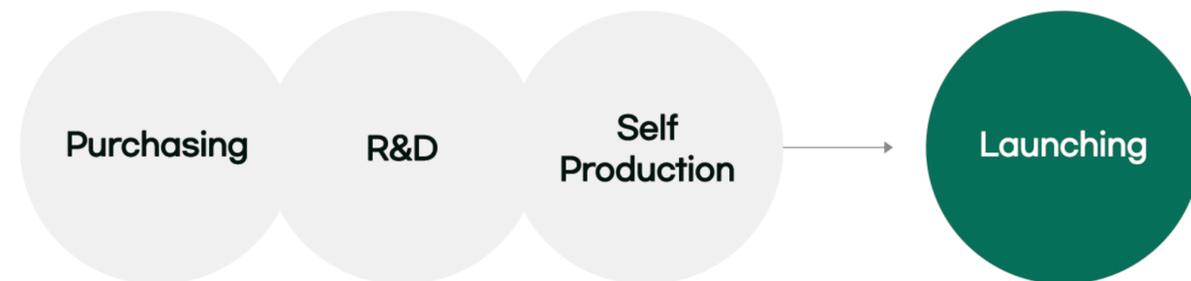

Today, the research and experimentation at Thejinhan continue.

Quality Control Process

To preserve the rich flavor of fruits and maintain their fresh taste, Thejinhan utilizes the **LA Method** (Low Temperature Ripening Aging).

This method focuses on fully understanding and transforming ingredients into products without compromising their essence.
